Vitas Lebanon Client George Al Haj at his workshop located in Byblos City near Mount Lebanon.
Letter from the CEO

The year 2017 marked several exciting developments for Vitas Group. We signed shareholders agreements and closed investments with new commercial partners in Lebanon and Egypt. Saradar Bank purchased a 49 percent stake in Vitas Lebanon and committed $20 million in new debt financing to expand our footprint across the country. Saradar Bank is a premier financial institution in Lebanon and has been at the center of Lebanese banking for over 60 years. Egyptian private equity firm BPE Partners, through its new subsidiary “Ebtikar,” entered a 50/50 joint venture to launch Vitas Egypt. Vitas Egypt will be the first microfinance company in the country targeting the small enterprise customer segment with a digital-intensive footprint. The interest and commitment of these two strategic investors yields proof of the strong track record of solid management and profitability that Vitas subsidiaries have successfully built over the years.

Vitas remains focused on the Middle East for a reason. It is a region of the world that holds the highest number of youth and the largest percentage of unemployment. The numbers are staggering: 57 percent of the population in the Middle East and North Africa is under the age of 30. It has the world’s highest rate of youth unemployment, at 28 percent. In Egypt, youth unemployment is 35 percent. An estimated 23 million youth are unemployed in the region. It is vital to recognize youth as an opportunity rather than a problem. Young people are critical to our success and to advancing sustainable economic growth in their communities. It is imperative that we reach this generation and build inclusive financial systems. I am very proud to report that nearly 30 percent of Vitas’ current clients are under the age of 30.

Looking ahead, digitalization is a theme that will continue across our companies as we build more responsive websites, interact with customers through digital and social channels, improve gender diversity, and implement data-driven models and policies that will enhance better decision-making.

Despite the challenges of today, we stand ready to embrace the future and are proud of our growing footprint; we are now, 1,300 plus Vitas professionals and 100,000 plus customers strong.

Elissa McCarter LaBorde
CEO, Vitas Group
Letter from the Chair of the Management Committee

Vitas Group continues to be the frontier impact investment vehicle of Global Communities using innovative and proven methods to advance financial inclusion in some of the toughest markets in the world. Over the years, I have had the opportunity to meet Vitas clients in different countries, listen to their stories, and witness firsthand the impact of our programs. In 2017, with the financial support of Vitas, small business owners created an estimated 16,736 full-time jobs and 8,992 part-time jobs, and sustained another 35,382 full-time and 9,253 part-time jobs. Across all six Vitas institutions, 81 percent of clients reported increased business profits after taking loans. Loans to youth showed higher increases in business profits than loans to other age groups, indicating there is still an entrepreneurial spirit and room to grow, even in highly volatile markets like Iraq, Lebanon and Palestine.

As Chairman of the Vitas Group Board, I am particularly impressed and inspired by the dedication and commitment of our employees, many of whom have been with us for over 15 years. Our employees are our strength and I hope you will enjoy reading their testimonials along with inspiring stories of our clients in this report.

Despite the rapidly changing times – from politics to technology to man-made and natural disasters – Vitas and Global Communities share an increasingly important role in providing a stable source of financing to those most vulnerable to change. Our partners, board members and management teams will remain committed to investing in communities where that investment is needed most.

She grows corn and other vegetables on her farm but her primary source of income is her cattle. Luminita has more than 50 cows and about 400 sheep. She needed money to buy more land and make several improvements to keep her business afloat. She tried to secure a loan from different local banks but faced a number of bureaucratic hurdles. It seemed like no one trusted Luminita until she approached Vitas Romania. Through Vitas, she was quickly able to secure an agricultural loan and was impressed by the simple application process. Two consecutive loans from Vitas Romania helped her to buy more land and get most improvements done. “With timely financial help from Vitas, I was able to finish the roof on the stable; I was also able to buy a tractor and two cars. Without their help it wouldn’t have been possible,” says Luminita.
